Potential service providers for your event

We want your wedding, reunion or other event to be a special memory. To help you along your way, we are providing some contact information for area vendors who might help you make your day as perfect as you've dreamed. Understand that, in providing this information, we are not making any guarantees regarding their services. However, attempts have been made to list businesses that are members of area chambers of commerce, the Better Business Bureau or have otherwise been told to us to have a good reputation.

All contracts for vendor services will be handled separately from use of the inn and paid directly to the specific vendor.
